## Office 365 & Teams

### Consistency, Connectivity and Manageability for O365 Portals:

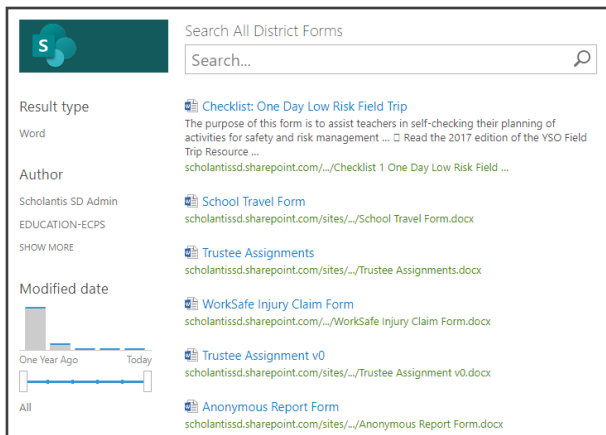

With many districts utilizing more of the Microsoft Office 365 platform, Scholantis has developed a solution for districts who want to move their staff portals there in the future.

### Cloud Staff Portal

Easily searchable forms, manuals, and procedures without having to click through multiple sites.

### Department and School Community Sites

Secure hosted solution within your own Microsoft tenant, where communities can share information and ideas safely.

### Teams Integration

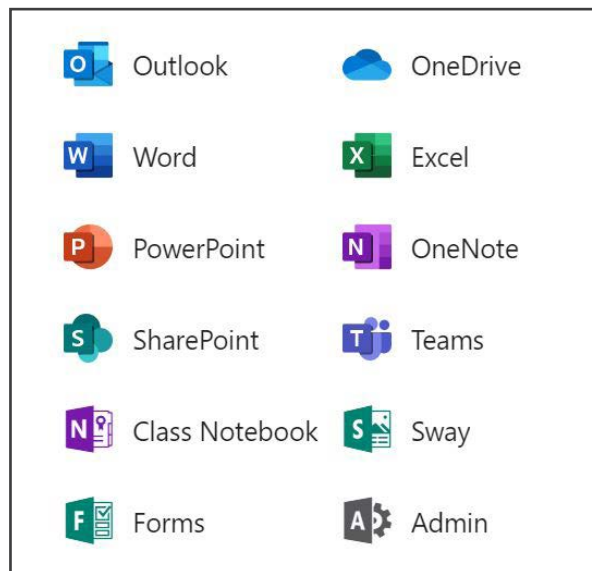

Seamless integration of Teams application with your Staff Portal. Here you can explore files, forms and apps from your online portal and each school can have their own team environment!

### ADFS Security

Utilizing your existing Active Directory security, we have built our Scholantis O365 sync tool to keep Microsoft Teams securities up to date.

### Apps

All of your staff's apps and links in one location, accessible online or on mobile through the Teams App.

Contact us at [info@scholantis.com](mailto:info@scholantis.com) for more info or to book a demo.

We power dynamic, custom-designed websites for schools and districts.

Our cloud-based content management system is hosted in Azure™ (Canada) and is powered by Edlio. It is packed with features designed specifically for teachers and school administrators and is a perfect fit for educational organizations.
